CUSTOM JIGS and LEAD HEADS

As most know I've been tying flies and lure making for many years. Most of my efforts were for the trade, shops, other guides, and the few dedicated anglers who sought me out. I've decided to widen my approach and make top quality lures available to anyone that wants them. I won't be keeping anything in stock, everything will be made to order.

Anyone that wants just a few bucktails would probably be better off just going to their favorite shop, but if you know what you want... give me a call...

Here's some pics of what I'm doing now....

The top bucktail is a one ounce "pilchard" jig for offshore, the remainder are all backcountry jigs (and I do them in 1/8, 1/4, 3/8, or 1/2oz sizes) in every color.

Part of a 1/4oz. order ready for packaging. They're also available with hitchhikers hidden up under the bucktail to make a really strong anchor when adding plastic tails.... All are tied with holographic flash and super-glued thread for durability. Jig prices are \$3.00 each, the one ounce pilchard jigs are \$3.50 each, jigs with hitchhikers are slightly more....

Next are the lead heads designed for plastic or Gulp tails – they come in the same sizes as the backcountry jigs with the same strong sharp black nickel hooks... All are available with either a barbed head or just plain to use with live bait (many call this the Troll-rite style).

Part of a "Gulp head" order, powder coated and baked finish for durability, note the different sizes. Every size is the same price, \$1.00each with the same high quality finish and hooks.

Give me a call anytime to work up an order at (954) 435-5666. I'm perfectly comfortable with several anglers combining an order to reach discount levels. If you like what you see don't keep it to yourself, tell your friends. These lures were developed to fish the backcountry of the Everglades. You'll be hard pressed to find better anywhere.

A quick update... I've added a line of skimmer jigs for anglers who've asked for them. Here's a few pics and they'll be the same price as any other bucktail...

I even have a very weedless option, check this out...

Don't think you'll find these in any store....

Thanks,

Capt Bob LeMay
